

Received a phone call from a member of NHW in Coaley on Saturday concerning a telephone call from Albert in India saying a refund of Bank charges was due to them in the figure of £900.00 They said they would send paperwork and then asked for their date of birth. The member said he had never had an overdraft and the caller rang off. This morning I received a similar call (international) when they said I was due to money from Barclays Bank (I do bank at Barclays) re overdraft charges. I told them that I was not interested and I rang off.
