

We have aware of a scam that mentions Crimestoppers as part of the approach. Members of the public are 'cold-called' by people saying that [*local*] Crimestoppers are installing home security system in selected houses, those rung being also asked if they already have an alarm! Even if the answer is yes, a further call from a 'security advisor' is promised but doesn't take place.

In the same way as with bogus advertising scams that use the Crimestoppers name, we are keen to put a stop to these sorts of approaches. Should you hear of this or similar approaches, I would be grateful if you can let me know and, if possible, to obtain/send me any details of those responsible (names/addresses/tel nos etc).

I will forward details to Crimestoppers
